

Family portraits

Family portrait sessions are personally designed to fit your needs and illustrate your family's life style. Portrait photography is available in either color, black & white and as a painting. Considerable time, care and materials are expended to produce your portrait. Each portrait image includes detailed retouching, facial blemishes, etc.

Presentation of your portrait images will be scheduled approximately one week following your session. Your portraits are projected onto a large screen for your viewing ease and portrait selection. It takes up to an hour to make your portrait choices and size determination. It's best to leave the kids home while you make your decisions.

Your most valuable possession is your family. When you display a canvas wall portrait of your family in your home, you view the rewards of your life on a daily basis.

Plateau Portraits has been on the Sammamish Plateau creating custom canvas wall portraits since 1989. This classical style inspired by oil painters represents the ultimate in hand crafted quality.

We look forward to planning your family portrait session with you. Please give us a call to discuss clothing, planning the portrait location and scheduling a session date.

Clothing Selections

For outdoor portrait sessions:

Wear long sleeved garments and long pants, solid medium tones look the best. Choose earth tone shades of green, brown, khaki, grey and blue. Women can wear more feminine tones like baby blue, magenta, pink, etc. Do not wear too dark or too light colors. Solid colors are always the best choice. Avoid patterns such as stripes, plaids, florals, prints, logos and bright colors.

The goal of any fine portrait is to direct the viewer's attention to the subjects faces in the portrait. Avoid white shirts and shirts with a white collar, as the white next to the face pulls attention away from the face. Remember, when viewing an image, the eye is drawn to the lightest area of that image, which emphasizes it. Long sleeves are essential, as bare arms call attention to themselves and will overpower the face.

Shoes and socks or hose should match the tone of the outfit, no white shoes or socks.

Avoid very wide or particularly deep V-neck garments, turtle necks, as well as bulky cowl neck sweaters that completely hide the neck.

Women being photographed in full length should wear pants, long skirts, or dark stockings in order to keep the eye from being directed toward the legs and away from the face. Men should have their hair cut about one week before the portrait session.

For Studio Portraiture:

Wear long sleeved garments in medium to dark tones of brown, burgundy, grey, green, or blue. They are pleasing choices when photographed against a darker background.

Portrait Sessions

Studio session fee - \$100.

Outdoor, on location and in home portrait sessions from - \$200.

The portrait session fee includes-

A clothing consultation and discussion of the portrait location. Also included are the portrait session and image presentation.

Portrait session fee is determined by the type of sitting, location and the amount of time involved. Considerable time, effort and materials are used for your portrait session, to obtain fine quality results.

Choosing a Location

Portraiture in the natural surroundings of your home or outdoors is encouraged. Be creative, scenic locations and proper clothing selection will result in outstanding quality portraits. I'm available to meet with you to pre-plan a portrait location and look at clothing selections.

See our map on the information page of our web site.
